SPECIALTIES

SPECIALTIES

Engineered Innovative Solutions

When niche applications require one-of-a-kind product solutions, engineered and specialty papers are the basis of the answer. Need specifically-shaped products (conical and soufflé cups), a paper that can handle wetness (wine and beverage labels)—or a product that hasn't been created yet?

Industry-specific challenges become unique solutions with Glatfelter's specialty papers.

When companies find themselves in need of specialty products—new products, not yet created—our team of sales and products engineers invent and develop the customized solutions.

CUSTOMIZED

Playing cards	Paint chip cards	Candy packaging
Snow cone cups	Sticky notes	Popcorn containers
Greeting cards	Drinking cups	Hot dog trays
Colored packaging		

From developing a paper that stands up to wet paint to creating a paper that holds in enticing aromas, engineering unique papers to meet specific requirements is our specialty.

ENGINEERED

Digital papers	Wallpapers	Pressure sensitive labels
Ink jet papers	Billboard papers	Vinyl casting
Latex labels	Thermal transfers	Retail shelf marking
Release liners

INNOVATIONS

INNOVATIONS

Encapsulate Infinite Possibilities

Glatfelter's G-Force microencapsulation technology allows product developers to add controlled-release fragrances, flavor, UV resistance, antimicrobial treatments, and more to a myriad of core materials: Clothing with fragrances and skin-softeners released, inventions where ink "magically" appears, others where odors disappear.

With G-Force microencapsulation, the products and possibilities are infinite.

AGRICULTURE

From citrus groves that yield fruit juices for your children to vineyard crops producing grapes used for fine wines, our technology enables production of safer, cleaner crops with more nutritious results.

TEXTILES

Our smart fabric technology adds antimicrobial protection and moisture prevention. From your couch to your carpet, your pjs to your linens, we make fabrics better for you.

SERVICE

From scented cleaners that remove dirt to fragrant sprays that refresh carpet, we can create products that are as versatile as they are essential — for your industry — and for your customers.

INDUSTRIAL

Our technology can add longevity to your deck stain or mildew resistance to paint for your bathroom, adding strength, durability and customer loyalty.

FRAGRANCE

Whether trying to attain the scent of fresh-cleaned laundry or the captivating lure of perfume, our scientists can create delicate fragrances and protect highly unstable ingredients to increase the potency of your products — and your sales.

FIBERS & FILM

We can add fragrances to all sorts of materials, from carbonless papers to personal products. We can release skin softeners, scents — and imaginations. The possibilities are infinite.
